EDUCATION

University of North Carolina at Charlotte

B.S. Computer Science

Expected May 2027

Charlotte, NC

University of North Carolina at Greensboro

B.S. Computer Science | Dean's List, Fall 2024

Aug. 2023 – May 2025

Greensboro, NC

EXPERIENCE

Project Hedgehog

2025 – Present

AI Evaluation Contractor

Remote

- Evaluate AI model outputs for factual accuracy, reasoning quality, and relevance against task-specific rubrics, producing structured feedback used to guide model improvement.
- Analyze and compare responses across model versions to surface regressions and performance gaps, documenting findings for the training and alignment teams.
- Identify edge cases, inconsistencies, and failure modes in AI-generated outputs across a wide range of evaluation tasks, contributing to a growing internal error taxonomy.

iCode

Jan. 2025 – Present

Computer Science Instructor & IT Support Technician

Greensboro, NC

- Teach programming fundamentals in Java and Python, guiding students through computational thinking, hands-on coding projects, and debugging exercises across skill levels.
- Design and deliver interactive lessons on software development and problem-solving, mentoring students to build technical confidence through project-based learning.
- Provide technical support for classroom IDEs and coding environments, troubleshooting installation and configuration issues for Java, Python, and VS Code.
- Resolve runtime and debugging issues in student programming projects while maintaining classroom technology and ensuring smooth day-to-day lab operations.

PROJECTS

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and developed a responsive personal portfolio website from scratch, hand-coding layout, navigation, and styling without a template framework.
- Showcased projects, resume, and technical skills through a clean, mobile-friendly UI/UX design optimized for readability across devices.

PawCare | Java, Spring Boot, Spring Security, FreeMarker, MySQL

- Built backend customer-side features for a pet care management platform, including service booking, account management, and appointment tracking.
- Implemented secure authentication and authorization using Spring Security with BCrypt password hashing to protect user credentials and session data.
- Developed dynamic FreeMarker templates for customer dashboards and service listings backed by a relational MySQL data model.

ZA Store (Shopping Cart Web App) | PHP, Laravel, Blade, PostgreSQL

- Developed a full-stack e-commerce platform using Laravel's MVC architecture over a normalized PostgreSQL database.
- Implemented product browsing, a persistent shopping cart, and an admin management panel using Blade templating for dynamic, reusable views.

CERTIFICATIONS

Full-Stack Web Development | freeCodeCamp

2025

- Responsive Web Design, JavaScript Algorithms, Front End Libraries, Back End APIs.

Cloud Computing Fundamentals | AWS / Google Cloud

2025

- AWS Educate cloud learning path and Google Cloud Skills Boost labs.

SKILLS

Languages: Java, Python, PHP, JavaScript, C++, Kotlin, HTML, CSS, SQL

Frameworks & Tools: Spring Boot, Spring Security, Laravel, React, FreeMarker, Blade, PostgreSQL, Git, GitHub

Concepts: Object-Oriented Programming, Data Structures, REST APIs, MVC Architecture, Full-Stack Development, Debugging

LEADERSHIP & ACTIVITIES

Moroccan Student Organization

Aug. 2025 – Present

President

UNC Charlotte

- Lead cultural organization promoting Moroccan heritage and student engagement.
- Organize campus events and collaborate with university organizations.
